Mysterious traces of Sherlock Holmes at the SWISSPEAK Resorts in Meiringen

It is rumored there is an element of Sherlock Holmes in the construction of the SWISSPEAK Resorts in Meiringen. In December 2019, the apartment resort next to the Sherlock Holmes Museum was opened. There are rumors that Sherlock Holmes shows his presence in the lobby and in the modern, comfortable 2–4 room-apartments. How exactly has been kept strictly confidential! But it is certain that you have a wonderful insight into Sherlock Holmes' past as well as a view of the impressive Reichenbach Falls from many of these apartments. The apartments are all furnished with a fully equipped kitchen, cosy living and dining rooms and 1-3 bedrooms. An ideal location for treating yourself to a homemade Sherlock Holmes fondue in the evening, whilst enjoying the sunset over the mountains.

If you thought that the essence of Sherlock Holmes can only be felt at the Reichenbach Falls and at Conan Doyle Place in the summer, you are quite mistaken. In Winter, after a wonderful day skiing or snowboarding on the Hasliberg mountain, guests can relax and enjoy a warm sauna or drink in the bar. Not forgetting the kids can let off steam in the Kids- and Gaming Rooms! Even in Winter – around the clock – those guests looking for adventure can help solve the mysterious disappearance of Professor Braun. To take part in Meiringen's thriller, all you need is an internet-enabled smartphone and a desire to solve the puzzle surrounding Professor Braun. An unknown source has also reported that the Sherlock Holmes Museum, just a stone's throw from the resort, welcomes guests even in winter – careful though, entry is only possible with a warm winter jacket!

If you would like to find out more about Sherlock Holmes activities in Meiringen, why not take a look yourself and book a relaxing break at one of the high quality apartments.
